ABOUT THE BARSTOW SPEAKER SERIES

Created by a generous gift from the Barstow Foundation, the goal of the Barstow Speaker Series is to bring prominent business, community and environmental leaders to address members and friends of the Colorado River Foundation on a variety of topics pertaining to the Colorado River and environmental stewardship. The Barstow Speaker Series is an annual event to build awareness of the Colorado River Foundation and educate the community on issues facing the Colorado River.

ABOUT THE COLORADO RIVER FOUNDATION

The Colorado River Foundation (CRF), a 501c3 organization, was established in 1994 to promote education, protection and stewardship of the Colorado River in Texas. As the separate, nonprofit funding partner for the Lower Colorado River Authority (LCRA), the foundation raises funds to support natural science education and outdoor recreation, particularly for at-risk and underserved youth, annual river cleanups, and additional community projects that encourage the stewardship, awareness and protection of the Colorado River in Texas.
